

Multilingual MT Configurations

- Pivot translation (Cascading).
- Multi-lingual source (also called multi-way).
- Multi-lingual multi-source.
- Multi-lingual target.
- Multi-lingual multi-target.
- Both sides multi-lingual.
- (Both sides multi-lingual, multi-source, multi-target. ;-)
- Zero-shot training.
 - i.e. translating an unseen pair when both the source and target langs were covered in the training data in other pairs.
- “Beyond zero-shot” is translating from an unseen language.
