

Why Multilingual MT

- Help in low-resource settings.
 - Words, morphemes or syntactic patterns common to more languages.
 - Learning can reuse patterns seen in another dataset.
- Improve translation quality.
 - Words are ambiguous, the third language can disambiguate.
- Truly multi-lingual environments.
 - United Nations: 6 languages.
 - EU official languages: 24.
 - EUROSAT official languages: 43.
 - INTOSAT official languages...
